

CGA Acetylene Webinar Series

PRESENTED BY **GEORGE HOUGHTON**

Consultant to CGA

George Houghton spent his career at Carbide Industries LLC. George represented the company as a member and chair of both the CGA Acetylene Committee and the Environmental Committee.

General History of Acetylene and Its Properties, Part 1

October 18, 2018

An overview of the history of acetylene from its discovery in the mid 19th century to the present. This presentation will also include information on the safe and efficient use of acetylene and how these recommendations originated.

General History of Acetylene and Its Properties, Part 2

October 25, 2018

A continuation from General History of Acetylene and Its Properties, Part 1. Included in this session is an in-depth review of the properties of acetylene and how these properties affect handling and use of this gas.

History and Current Practices for Handling Calcium Carbide

November 1, 2018

A brief history of calcium carbide along with a review of its properties, handling, and uses. This webinar also includes guidelines on the safe and efficient use of calcium carbide, based upon industry standards.

Please note:

Each session is scheduled for one hour, which includes time for Q&A.

Each webinar will start at 2:00 pm eastern (1:00 pm central, 12:00 pm mountain, 11:00 am Pacific).

Who should attend?

- Anyone new to acetylene
- Anyone who would like to learn more

Audience level:

- Non-technical/entry level (little to no knowledge of the topic is required)

Registration questions? Contact Nancy Flower, nflower@cganet.com.

Registration form for non-CGA members only

Complete form and fax to CGA at 703-961-1831
