

CGA TECH26

INTERSECTION OF INDUSTRIAL
GASES & INNOVATION

INNOVATION SHOWCASE

Demonstrate your solutions, build valuable industry relationships, and connect with technical decision-makers driving innovation across the industrial gas and semiconductor supply chain.

CGA Technical Summit, TECH26
DoubleTree Resort Scottsdale, AZ
November 3-5, 2026

CGA TECH26

Hosted by the Compressed Gas Association, TECH26 is the only event dedicated exclusively to the industrial gas supply chain supporting next-generation manufacturing. The event brings together gas producers, equipment manufacturers, integrators, engineers, and safety leaders to address the standards, technologies, and operational challenges powering semiconductor fabrication and other advanced industries.

INNOVATION SHOWCASE

The Innovation Showcase is the central gathering place for attendees to explore the technologies, equipment, services, and expertise supporting the future of industrial gases and advanced manufacturing.

Located within the heart of TECH26, the Showcase provides exhibitors with direct access to engineers, operators, safety professionals, manufacturers, integrators, contractors, and industry leaders from across the industrial gas and semiconductor supply chain.

WHY EXHIBIT?

Connect with the engineers, operators, safety professionals, manufacturers, and decision-makers advancing industrial gas operations, semiconductor manufacturing, and next-generation industrial infrastructure.

The Innovation Showcase serves as the hub for networking throughout TECH26, giving exhibitors multiple opportunities to build relationships, demonstrate solutions, and engage with a highly targeted technical audience.

Exhibiting at TECH26 allows you to:

- Reach professionals across the industrial gas and semiconductor supply chains
- Increase visibility among technical and operational decision-makers
- Showcase products, services, and expertise to a highly qualified audience
- Build relationships with customers, partners, and industry leaders
- Position your company at the intersection of industrial gases, safety, and advanced manufacturing

We expect around 300 attendees at TECH26!

Please note: All Exhibitor tables subject to approval by CGA.
