

SEMINARS

Educate. Engage. Grow.

CGA hosts several technically-focused safety seminars each year which provide an opportunity for our members to share best practices, review learnings from incidents, explore new technologies, and more. These events draw an audience of engineers, plant operations managers, process safety experts, distributors, suppliers, and others who are directly engaged in industry design, distribution, and operation roles.

These seminars offer an exclusive and unique opportunity to showcase your brand in front of an audience focused on a specific issue.

This is your chance to help CGA Seminars grow and thrive while connecting with the right people.
