GAWDA DISTRIBUTOR SAFETY PROGRAM FREQUENTLY ASKED QUESTIONS

Who is eligible for the program?

This program is open to all GAWDA Distributor Members.

What do I have to submit?

(1) A subscriber application, which identifies who will manage your company's account and who should have access to CGA materials.
(2) A safety data form summarizing your company's work-related injuries and illnesses. This data is from your OSHA 300A form, and is used to benchmark against industry-wide safety data. Companies with 10 or less employees may opt out of data submission.

What happens to my safety data?

Safety data submissions are processed by CGA staff and aggregated to show industry safety trends. We will never share safety data identifying your company without your express permission.
